

FRIENDS OF THE COTTAGE

The trauma of sexual violence and child abuse leaves deep scars, and can have lasting effects on a person, which can lead to anxiety, depression, substance abuse and even suicide. But with emotional support and advocacy, survivors of abuse can heal and have healthy lives beyond the trauma. That's why The Cottage exists--to provide the services needed after trauma for survivors to heal and to thrive.

The Cottage strives to reduce the trauma and anxiety associated with child abuse and sexual assault during the reporting, investigative and healing process. We offer free legal and medical advocacy, as well as professional, trauma-informed counseling for people in the Athens and surrounding area, at any stage in the healing process.

We know you share in our commitment to a healthy community, and that you care about survivors and working toward a solution to child abuse and sexual assault. That's why we are inviting you to become a Friend of The Cottage. Friends of The Cottage are individuals, businesses, clubs or groups who wish to provide the sustaining support we need to continue to offer no-cost services. By becoming a Friend, and committing to at least \$10 a month/\$120 a year, you are helping pay for specially trained advocates to help survivors and their families navigate the difficult aftermath of abuse and assault.

As a Friend of The Cottage, you/your business will be a part of The Cottage team. You'll be the first to hear of news, be invited to special events and will be promoted on signage, advertisements, materials, as well as on The Cottage website and social media accounts. Some Friends levels include other incentives and promotion.

Thank you for your support of The Cottage so that we may empower survivors in their healing, and be a voice for change in our community.

PLEASE SEE THE ATTACHED SPONSORSHIP LEVELS DOCUMENT FOR MORE INFORMATION ON LEVELS OF GIVING
